Research Interests

Prospective PhD applicant, Fall 2027 · actively seeking doctoral opportunities in Human-Computer Interaction / Interaction Design.

HCI; qualitative methods; AI mediation; family-centered design; design ethics

Education

2021 – 2024 **Lanzhou University** | Lanzhou, China

M.F.A. in Visual Communication Design · GPA 4.08 / 5.0 (equiv. 90.8 / 100)

Thesis: *Research on Brand Image Design Based on Qingyang Incense Sachet Culture*

Advisor: Associate Prof. Yandong Lin

2015 – 2019 **Hunan University** | Changsha, China

B.Eng. in Industrial Design · GPA 3.51 / 4.0

Capstone: *Three-Dimensional Gift Design of Dong Brocade Patterns Based on Ceramic 3D Printing Technology*

Advisor: Associate Prof. Yonghong Liu

Skills

Research semi-structured interviewing, contextual inquiry, reflexive thematic analysis, field observation, survey design, competitive analysis, user persona, journey mapping, storyboarding, service blueprint, stakeholder mapping, research-through-design

Design Figma, Axure, Adobe, Procreate

AI / LLM prompt engineering and evaluation (DeepSeek, ChatGPT); AI-assisted product design

Technical LaTeX; HTML / CSS (basics); Python (learning)

Languages Mandarin Chinese (native); English — IELTS 7.5 (L 7.5 / R 8.5 / W 6.5 / S 7.0), CEFR C1 (Mar 2026)

Research Experience

CSCW '26 **“Working Around the ‘Smart’ Classroom”:** Teachers and On-site Staff as Infrastructure Repair Workers in a Chinese K–12 EdTech Deployment

[Lucan Li](#)

Full paper, under review at the Proceedings of the ACM on Human-Computer Interaction (CSCW), submitted May 2026

CSCW '26 **Visibility Asymmetry:** How Vendor Attention Shapes Which EdTech Breakdowns Become Product-Visible

[Lucan Li](#)

Poster, under review at the CSCW 2026 Companion / Posters Track, submitted May 2026

- 2023 – 2024 Research on Brand Image Design Based on Qingyang Incense Sachet Culture**
M.F.A. thesis, Lanzhou University
Advised by Associate Prof. Yandong Lin
- 2022 Exploration on the path of establishing a red cultural brand in Lanzhou**
Li, L., Ceng, J., & Lin, Y.
The Journal of Fashion Design and Engineering, (2), 51–54 · [Chinese; CN31-2129/TS]
- 2018 – 2019 Three-Dimensional Gift Design of Dong Brocade Patterns Based on Ceramic 3D Printing Technology**
Undergraduate Capstone, Hunan University · Hunan Provincial Strategic Emerging Industry R&D Project
10-person team under Prof. Tie Ji and Associate Prof. Yonghong Liu
Co-inventor of granted design patent “Ceramic Storage Box” (ZL 2019 3 0546643.X)
· Malanshan Cultural Creativity Competition Merit Prize

Professional Experience

- 2024 – 2025 iFlytek | Hefei, China**
Product Manager, K-12 Education Technology
Daxueqing (Learning Analytics) Product Development Department
– 10+ semi-structured teacher interviews + multi-site field observation
– Designed classroom whiteboard, scanning-flow, and anomaly-review flows
– First-generation AI step-by-step grading for middle-school math (DeepSeek)
– Stratified-sample analysis of 1.15M scanning-anomaly records (14 → 3 clusters)
- 2022 – 2023 Jingtian Technology | Shenzhen, China**
Product Management Intern (C-end)
xnote: handwriting note-taking app for student learning contexts
– Mixed-methods user research: behavioral analytics + competitive feature analysis
– Coded longitudinal open-ended feedback into structured issue taxonomy
- 2019 – 2020 SANY Heavy Industry | Changsha, China**
Product Documentation Manager
– Redesigned retrieval / versioning / sharing workflows across 30+ document processes

Selected Projects

- 2021 Yue Ban Ji: Service Design for Intergenerational Elder-Care**
Hunan University course (Service Design & Business) · 5-person team
– Service design concept for a 4-actor system: companionship-record app + (proposed) premium-reduction mechanism
– Methods: 10 cross-generation interviews, stakeholder mapping, needs quadrant analysis, service blueprint

2021 Colorpopen: Gamified Hand-Washing Concept for Children

Independent portfolio project · Provincial Second Prize, China Good Creativity & Digital Art Design Competition, Gansu Region (Oct 2021)

- Behavior-change concept for children aged 5–10: pen-style soap dispenser + wall-mount dock with finishable countdown
- Methods: persona, 3-stage journey mapping, 11-product competitive analysis, iterative material testing

Honors & Awards

- Oct 2023** Lanzhou University Graduate Scholarship — Second Class
- Oct 2022** Lanzhou University Graduate Scholarship — Second Class
- Oct 2021** Lanzhou University Graduate Scholarship — Third Class
- Mar 2023** “Industry & Information Research” Magazine Cover Design — Excellence Award (×2)
- Nov 2022** National College Advertising Competition — Provincial Excellence Award
- Aug 2022** China Good Creativity & Digital Art Design Competition, Gansu Region — Third Prize
- Jul 2022** Times Young Creative Award — Mainland Excellence Award
- Feb 2022** Gansu Cultural Tourism IP Design Competition — Third Prize (×3)
- Oct 2021** China Good Creativity & Digital Art Design Competition, Gansu Region — Second Prize, *Colorpopen*
- Nov 2019** Malanshan Cultural Creativity Competition — Merit Prize, *Dong Brocade Capstone*
- Jul 2020** Design Patent: “Ceramic Storage Box” (ZL 2019 3 0546643.X) · co-inventor with Prof. Yonghong Liu; held by Hunan University and Hunan Xinshiji Ceramics Co.
